PRODUCT DIVERSITY

Your idea is our mission

Dear Business Partner,

We are delighted to present the new Hüdig + Rocholz catalogue.

This catalogue is the result of ongoing production developments, and showcases new additions to our product range.
One example is the SYSTEM BASIC, our perfect entry-level system with its persuasively attractive prices and even better accessories!

We have gone so far as to dedicate several double-page spreads to our new and individually combinable FLEX table system. This system will enable you to work even more ergonomically and efficiently than ever before. We're especially proud of our award from the IGR, a German interest group of back-training teachers. After thorough testing, the IGR has confirmed that our SYSTEM FLEX is an ergonomic product, making it **the only IGR-certified packing table in the world** (as of 07.05.2015)!

Our never-ending goal is to inspire you with our products and service. One element towards achieving that aim is this catalogue, which presents you our premium-quality, market-oriented and modern solutions, and outlines our performance capabilities.
Our achievements are based on the expertise, commitment and creativity of our employees and partners, as well as on advanced and ecologically sound technologies.
We place our reliance on Germany as our manufacturing location and on an ISO 9001:2008-certified management system. As a medium-sized, owner-controlled company, our distinguishing characteristics are continuity and fairness, as well as know-how and flexibility, which enable us to provide products and solutions that you may not find in our catalogue.

Get in touch with us. We look forward to welcoming new customers and continuing our excellent relationships with existing partners!

Kind regards,
Marc Rocholz

www.huedig-rocholz.de

Successful teamwork!

Together with your local dealer, we will help you to bring your project to fruition, beginning at the planning phase, through to the realisation, and finishing with the installation at your premises. Benefit from our long-standing experience and expertise.

The workplace plays a determining and often underestimated role when it comes down to productivity and optimising processes.

A dedicated department with extensive project experience makes sure, together with the local distributor, that the packing workplaces are not only ideally integrated into the product flow, but also that they satisfy ergonomic standards.

Zertifiziert von

Ergonomisches Produkt

IGR

Wir stärken Ihren Rücken

Interessengemeinschaft der Rückenschullehrer/innen e.V.

www.igr-ev.de

It is possible to lower processing times and increase order picking or packing output by around 20% through effective integration of the workplaces in the product flow, and by taking the downstream and upstream processes into consideration.

Ergonomics at the workplace

Before

After

1.

2.

3.

4.

Ergonomics at the workplace

Investing in an ergonomically designed workplace will benefit both your employees' health and the efficiency and quality of the work they do. On average, employees are absent from work due to illness on around 12 days every year. If this downtime could be reduced by just 3 days with a sensibly designed workplace where the ergonomics are concerned, that would equate to annual cost savings of about €1,000 with each employee. The consequent increase in productivity can very quickly accumulate up to an additional €800-1000 per person and year. Your investment in an ideal packing table can therefore pay for itself in just 1 to 2 years.

Solutions for a healthy workday

New industrial safety regulations prescribe basic safety measures to be observed when using work equipment. We will help you to put these regulations into practice.

§ 6
Grundlegende Schutzmaßnahmen bei der Verwendung von Arbeitsmitteln

(1) Der Arbeitgeber hat dafür zu sorgen, dass die Arbeitsmittel sicher verwendet und dabei die Grundsätze der Ergonomie beachtet werden. Dabei ist Anhang 1 zu beachten. Die Verwendung der Arbeitsmittel ist so zu gestalten und zu organisieren, dass Belastungen und Fehlbeanspruchungen, die die Gesundheit und die Sicherheit der Beschäftigten gefährden können, vermieden oder, wenn dies nicht möglich ist, auf ein Mindestmaß reduziert werden. Der Arbeitgeber hat darauf zu achten, dass die Beschäftigten in der Lage sind, die Arbeitsmittel zu verwenden, ohne sich oder andere Personen zu gefährden. Insbesondere sind folgende Grundsätze einer menschengerechten Gestaltung der Arbeit zu berücksichtigen:

1. die Arbeitsmittel einschließlich ihrer Schnittstelle zum Menschen müssen an die körperlichen Eigenschaften und die Kompetenz der Beschäftigten angepasst sein sowie biomechanische Belastungen vermeiden. Zu berücksichtigen sind hierbei die Arbeitsumgebung, die Lage der Zugriffstellen und des Schwerpunktes des Arbeitsmittels, die erforderliche Körperhaltung, die Körperbewegung, die Entfernung zum Körper, die benötigte persönliche Schutzausrüstung sowie die psychische Belastung der Beschäftigten,

2. die Beschäftigten müssen über einen ausreichenden Bewegungsfreiraum verfügen,

Figs. 1-4 Pneumatic lift table: Do you want to effortlessly lift or lower heavy packaging items and get them into the right gripping or working height? If so, the pneumatic lift table is just what you need, and it's also the ideal solution as an interface to the flow of materials.

Fig. 5 Inclined mounting profiles and sloping shelves support ergonomic movement at the packing station.

Fig. 6 Height adjustment with a folding crank - 710-960 mm: easily adjust the table to the right working height.

Fig. 7 Electrical height adjustment - 710-960 mm: featuring four saved settings and a height display, the table can be variably positioned to suit each employee.

Fig. 8 Workplace mats: These protect the joints and spinal discs, are slip-resistant, and offer sure footing at the workplace. The special structure of the underside of the workplace mats also means that the body stays in motion. This is good for the circulation, prevents fatigue, and reduces strain on one side of the body. Other versions are also available for entire aisles and are, as you would expect, suitable for use with pallet trucks.

5.

6.

7.

8.

We're delighted to present the very first* and only* packing table to have been certified by the IGR as being an ergonomic product. The SYSTEM FLEX creates the perfect conditions at the workplace for working economically, healthily and efficiently.

SYSTEM BASIC

1.

SYSTEM BASIC packing and work table
- Sturdy steel construction
- Struts and legs made of square tubing
- Melamine resin-coated 19 mm table top
- Max. surface load 100 kg

Order no.	W x D x H (mm)
700001	1600 x 800 x 850
700002	2000 x 800 x 850

2.

Uprights
- For any combination of table accessories
- 1 set = 2 pcs.
- Height above table 1030 mm, slots every 200 mm

Order no.	W x D x H (mm)
700030	40 x 40 x 1266

3.

Bottom shelf
- Melamine resin-coated 19 mm sheet
- Max. surface load 50 kg
- Weight 19 kg

Order no.	W x D x H (mm)
700100	1525 x 650 x 19

4.

Add-on storage rack
- Square tubing
- Incl. 8 dividers
- Max. surface load 50 kg
- Weight 19 kg

Order no.	W x D x H (mm)
700050	1420 x 300 x 400

5.

Document shelf
- Galvanised sheet steel for attachment to uprights
- Max. surface load 50 kg
- Weight 6 kg

Order no.	W x D x H (mm)
700060	1425 x 253 x 114

6.

Storage shelf
- Galvanised sheet steel for attachment to uprights
- Max. surface load 25 kg
- Weight 15 kg

Order no.	W x D x H (mm)
700070	1430 x 400 x 58

7.

Drawer
- Made of sheet steel
- Lockable
- Load capacity 12.5 kg

Order no.	W x D x H (mm)
700120	513 x 530 x 160

8.

Container
- Mobile with 4 castors
- 2 lockable castors
- Load capacity 50 kg
- Sturdy plastic
- Weight 7 kg

Order no.	W x D x H (mm)
700110	610 x 416 x 495

9.

Drawer unit
- Sheet steel
- Mobile with 4 castors
- 2 lockable castors
- Four drawers
- Load capacity 35 kg per drawer
- Weight 42 kg

Order no.	W x D x H (mm)
3010	490 x 600 x 675

10.

Cupboard unit
- Sheet steel
- Mobile with 4 castors
- 2 lockable castors
- With 1 drawer and 1 cupboard door
- Load capacity 50 kg
- Weight 32 kg

Order no.	W x D x H (mm)
3011	490 x 600 x 675

11.

Undertable cardboard storage rack
- Square tubing
- Mobile with 4 castors
- 2 lockable castors
- Incl. 8 dividers
- Surface load 50 kg
- Weight 14 kg

Order no.	W x D x H (mm)
700080	1415 x 300 x 415

12.

Side table
- Square tubing
- Sheet steel table top
- Galvanised
- Max. surface load 100 kg
- Weight 20 kg

Order no.	W x D x H (mm)
700020	600 x 600 x 750

13.

Add-on cutter
- For attachment to uprights
- Cutting width 1250 mm
- Incl. shaft
- Galvanised
- Weight 12 kg

Order no.	W x D x H (mm)
700090	1500 x 175 x 20

14.

Backboard
- For attachment to uprights
- Sheet steel
- Galvanised
- Weight 2 kg

Order no.	W x D x H (mm)
700040	1515 x 4 x 70

15.

PC holder with strap
- For securing the PC underneath the table
- Weight 1 kg

Order no.	W x D x H (mm)
308100	Radius max. 1680

16.
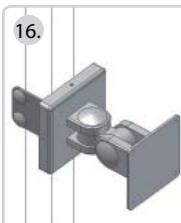

TFT monitor holder, Vesa 75/100
- Incl. adapter for Vesa 75 and Vesa 100
- Weight 0.5 kg

Order no.	W x D x H (mm)
228120	200 x 100 x 100

17.

Cutter stand
- Horizontal
- With blades for foam, air bubble film, etc.
- Cutting width 1250 mm
- Max. roll weight 100 kg
- Max. roll diameter 1000 mm

Order no.	W x D x H (mm)
700130	1500 x 920 x 1100

18.

Spindle between the uprights
- For mounting material rolls
- Load capacity 20 kg

Order no.	W x D x H (mm)
700140	1425

19.

Spindle underneath the table (between feet)
- For mounting material rolls
- Load capacity 100 kg

Order no.	W x D x H (mm)
700150	1430

The different components of the SYSTEM BASIC allow you to design an individual workplace.
Experience shows that many needs can be covered by our basic system. And the attractive price means that it will quickly pay for itself!

SYSTEM 1600

Document shelf

Steel drawer

SYSTEM**ATIC**

The SYSTEM 1600 offers you two all-in-one solutions with either a bottom shelf and steel drawer or with a roll holder and add-on cutter - depending on what it is to be used for.

Do you need other accessories? That's no problem, as both all-in-one solutions can be extended with accessories from the SYSTEM range. You can also put together your own custom solution from the SYSTEM 1600 elements shown on the following pages. The SYSTEM 1600 has an adjustable height of between 690 mm and 960 mm as standard.

SYSTEM 1600

Complete packing station with 1600 mm wide table top, document shelf and cardboard storage rack

• Sturdy steel table
• 30 mm worktop
• 300 kg surface load capacity
• Light grey worktop coated with melamine resin
• Steel components with powder-coated finish, anthracite RAL 7016, ruby red RAL 3003
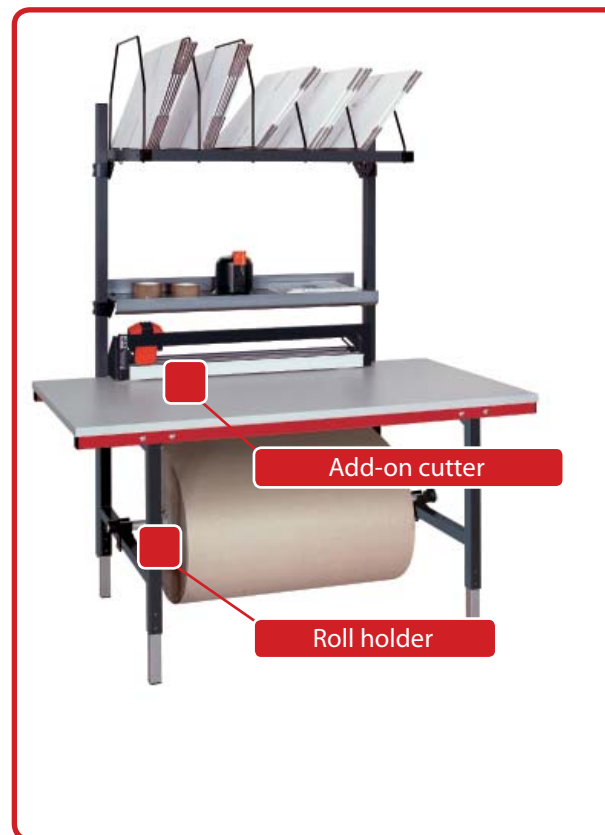

Order no. 163001
W x D x H (mm): 1600 x 800 x 690-960
With bottom shelf (1145 x 650 x 19 mm)
and steel drawer (520 x 500 x 150 mm)

Order no. 163002
W x D x H (mm): 1600 x 800 x 690-960
Like 163001 but with cutter in silver-grey RAL 9007, cutter cartridges for paper and foils, cutting width 100 cm, spindle set with cones and bearing shells
(without drawer and bottom shelf)

Scale

A suitable solution for every requirement. The extensive range of accessories offers unlimited scope for combinations. Here we can show you just a few selected extension options. Your local dealer will be pleased to advise you about putting together the best packing table for your own requirements.

SYSTEM 2000

SYSTEMATIC

Classics, bestsellers, standard - these are terms we hear time and time again in conjunction with our SYSTEM 2000. "Extremely versatile and long-lasting" - that probably sums it up. The SYSTEM 2000 offers a multitude of combination possibilities. Beginning with the various types of tables through to the extensive range of accessories and suitable cutter stands, the system offers the ideal solution for all your needs.

SYSTEM 2000

On the following pages we will show you several interesting solutions, regardless of whether you require a single, extremely efficient workplace, or you want to equip an entire logistics centre.
Here you will find further information about ergonomics and our extensive range of IT accessories. Key aspects of consignment processes are the flow of materials and weighing, which naturally also includes our roller track tables.

• Sturdy steel table
• 30 mm worktop
• 300 kg surface load capacity
• Light grey worktop, coated with melamine resin
• Steel components with powder-coated finish, anthracite RAL 7016, ruby red RAL 3003
• Optional height adjustment with a crank or electric motor
• Custom solutions as special designs
• Extensive range of accessories
• Flexible clamp mounting for accessories
• Tables with integrated scale and/or roller track

**QUALITY
MADE
IN GERMANY**

All measurements in mm
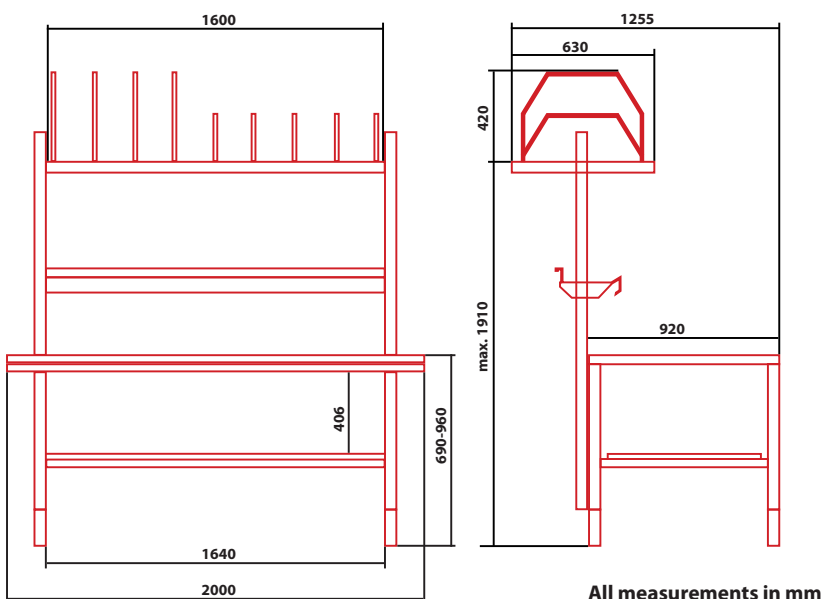

If the work surface is too large, over time all kinds of things accumulate on it which don't belong there. Keep your workplace completely clear and orderly right from the outset with the appropriate accessories. This will save time and calm your nerves!

SYSTEM 2000

Special features at a glance:

■ The SYSTEM 2000 can be expanded or upgraded whenever the need arises. This means that your products keep flowing when processes and demands change. At the same time you get a high degree of investment security.

■ Daisy-chaining, integration and adaptation options offer countless possibilities from single workplaces up to complete packaging lines.

■ With the SYSTEM 2000, everything is ergonomically arranged and ready to hand. This makes for a tidy and efficient workplace.

■ The SYSTEM 2000 is versatile, and can be supplied as a packing table, roller track table, with an integrated scale, as well as with various height adjustments.

■ Custom solutions. Together with your local specialist trading partner, we develop a custom solution with SYSTEM 2000 to meet your needs.

Alongside high quality standards, being located in Germany also means that we can guarantee short delivery times and efficiently supply accessories and spare parts.

Surfaces

It goes without saying that we can offer you the right worktop for every application. As well as mechanical strain and which transport containers are being used, "soft" factors also play a role. We can fulfil your colour requirements as well as provide different woodgrain decors for a pleasant working atmosphere. For assembly work, for instance, we recommend a finger-jointed worktop. A brand new addition to the range is our cut-resistant surface, e.g. for cutting packing material to size at the workplace. Our melamine resin coating has proven to be a real all-rounder, which we supply as standard.

Melamine resin coating:
For assembly and packing work

Conductive (ESD protection):
For assembling and packing electronic assemblies

Plywood boards / multiplex:
For extreme mechanical strain and loads

Stainless steel:
For workplaces where people work with oil, acids or other fluids

You can protect the table top with a cut-resistant surface!

Choose your preferred surface from our range. You can also combine it with all the other packing table systems!
Not only that, but you can even choose your favourite accentuating colour! Discuss your requirements with our trained sales partners – we'll be glad to help you!

IT at the workplace

Today, IT is an indispensable element of most workplaces. That's why we have put together an especially extensive range of IT accessories for you. It includes holders for PCs and thin clients, various keyboard solutions such as the retracting keyboard drawer, or the folding keyboard tray, and monitor holders in different designs.

Ergonomically integrated IT

• Holders for PCs, thin clients and notebooks
• Flexible monitor holders for different designs
• Ergonomic solutions for keyboard and mouse
• Printer platforms and trolleys for different printing systems
• Easy assembly
• Easy access for servicing
• Ongoing developments and adaptations to
  accommodate new technologies
• Other solutions available by request

Fig. A
The various TFT folding arms, as well as the keyboard and mouse platform with folding arm, can be individually combined with the supporting column, upright adapters or profile rails. The fastening system allows monitors to be easily installed (they can be secured with fixing screws).

Fig. B
Retracting printer shelf for label printers: Allows you to easily replace the printing media. Simply pull the shelf with the printer towards you for convenient access to the labels (rolls) and printing foil.

Fig. C
Printer trolley: Sturdy and mobile steel design, ideal for larger laser printers with tray, e.g. for paper.

Proper positioning of IT components is really easy with the special attachment options. But it also cuts down the workload for your IT support team since easy access is assured for reduced service downtimes.

SYSTEM 2000

Maximum flexibility
The roller track table for SYSTEM 2000
• With work surface as packing table
• Without work surface as transport/buffer table
• Optionally available with integrated scale

Uninterrupted flow of materials

The flexibility of the SYSTEM 2000 enables you to integrate it in your order picking and packaging processes. Various interface solutions, together with adaptation and integration options, assure an uninterrupted flow of products. One example of this are the weighing systems integrated in the table or roller track, as well as the ball units. The modular design means that adaptations can be made in the future with little effort and at low cost. After all, it's not just the products that flow, but the processes as well.

With the right scale, you can do more than just weigh things!

With a scale, the first thing that springs to mind is to weigh something. However, depending on the type of scale, it can do much more than just that. Counting scales, for example, can be helpful for order-picking small items or be used as "counting aids" in the incoming goods department. Linked to the ERP system or an article database recorded in the scale, weight plausibility checks can also be conducted during order picking. Supplemented by a barcode scanner and label printer, a large number of other solutions can also be realised. A suitable scale is available for every application purpose. Your specialist dealer will also consider this aspect during a personal consultation.

The scale can optionally also be positioned on the left or in the middle

Don't forget to take the upstream and downstream processes into account in your planning. How does the product get to the workplace, what's the next step? What happens with the empty transport containers, for instance?

SYSTEM 2000

Roller track tables

Roller track tables are the adaptive interface to the conveyor system and provide for smooth integration in the product flow. We can offer you different variations with and without a work surface, as well as with an integrated scale or height adjustment.

Flexible and versatile

Our roller track head table is especially interesting. With this table, the roller track element is rotated by 90 degrees, and both the height and the angle can be adjusted.

This allows for both ergonomic positioning of the order picking container or packaging, as well as flexible integration in the product flow.

Our roller track tables are available in numerous combinations and designs:

- with and without work surface
- with integrated scale
- optional height adjustment with a crank
- roller track element parallel to the work surface or rotated by 90°
- adjustable angle on pure roller track tables
- suitable as a transport or buffer line
- custom solutions with rollers, small rollers or ball elements
- compatible with the accessories for SYSTEM 2000 work tables

360° view of the transverse roller track table at
www.huedig-rocholz.de

We are constantly active, just like your processes! Safeguard your future with flexible, extendable and adaptable systems!

Order no.	W x D x H (mm)
2042-3 Cardboard storage rack, short For approx. 300 folding cartons	1015 x 600 x 1860 Weight 64 kg
2043-3 Cardboard storage rack, long, For approx. 480 folding cartons	1600 x 600 x 1860 Weight 88 kg

SYSTEMATIC

Add-on storage rack can be mounted upright or inclined

H+R mounting profile
For inclined mounting at 0° or 20°

Shelf can be hooked on at +20°, 0°, -20°

TFT and keyboard holder with double-joint arm

Thin client holder
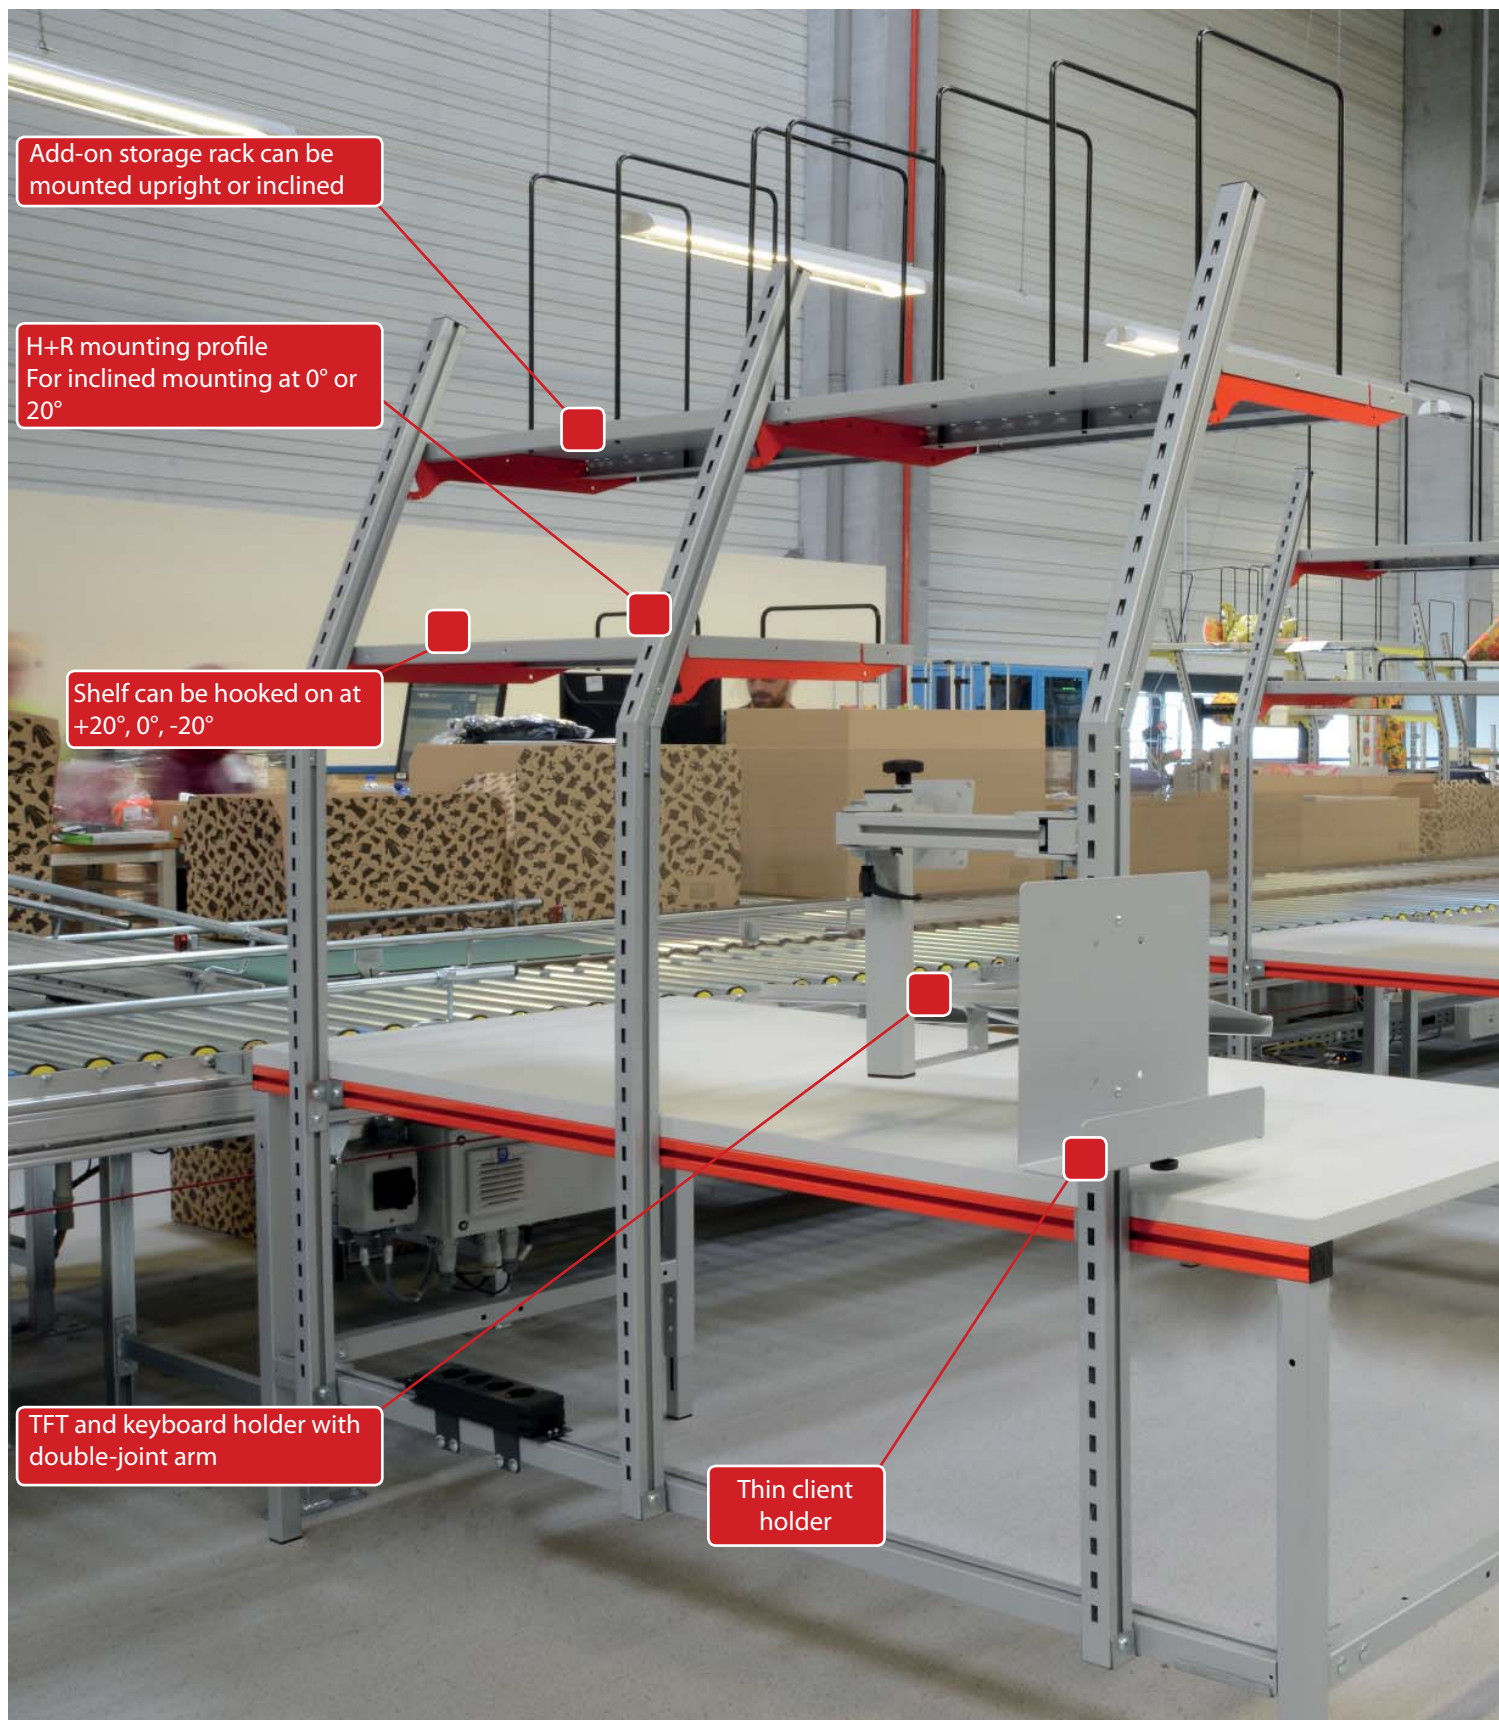

Horizontally adjustable H+R mounting profile

The H+R mounting profiles are the real star of the SYSTEM FLEX. Lateral grooves are used for the infinitely variable attachment of components such as perforated back panels, monitor swivel arms and other accessories. The front sides have a grid perforation of 39:39 mm for quickly hanging on shelves, retracting platforms, roll holders and other components without screws.

Page 45

SYSTEM FLEX

Combine the possibilities

Ergonomics play a key role, but not at the expense of flexibility. The top section of the mounting profile can be mounted upright or inclined by 20 degrees. This significantly improves the grip position of the shelves and accessories. By detaching the uprights from the table leg, the structures can additionally be moved horizontally to any position to accommodate conveyor system connections, for instance.

Special features at a glance:

■ The HR profile tube combines the advantages of an aluminium profile and a sturdy steel construction to create a totally innovative and exceedingly flexible concept.

■ The front sides of the HR mounting profiles have a grid perforation of 39:39 mm for quickly hanging on shelves, roll holders and other components without screws. This means that you can easily adapt the table to suit your processes, even when they change.

■ The lateral grooves are used to attach components such as perforated back panels, monitor swivel arms and other accessories and flexibly adjust their height. New accessories can be easily added as required.

■ The top section of the HR mounting profile can be mounted upright or inclined by 20 degrees. This significantly improves the grip position of the add-on parts! The grip area becomes more ergonomic for the workers. The carrier arms can also be mounted at an angle of -20°, 0° and +20°. This results in numerous combination possibilities.

■ By detaching the uprights from the table leg, the structures can also be infinitely moved horizontally on the frame to accommodate conveyor system connections, for instance.

■ The only packing table that has been certified by the German interest group of back-training teachers as an ergonomic product (as of 08.05.15).

■ Daisy-chaining, integration and adaptation options offer countless possibilities from single workplaces up to complete packaging lines.
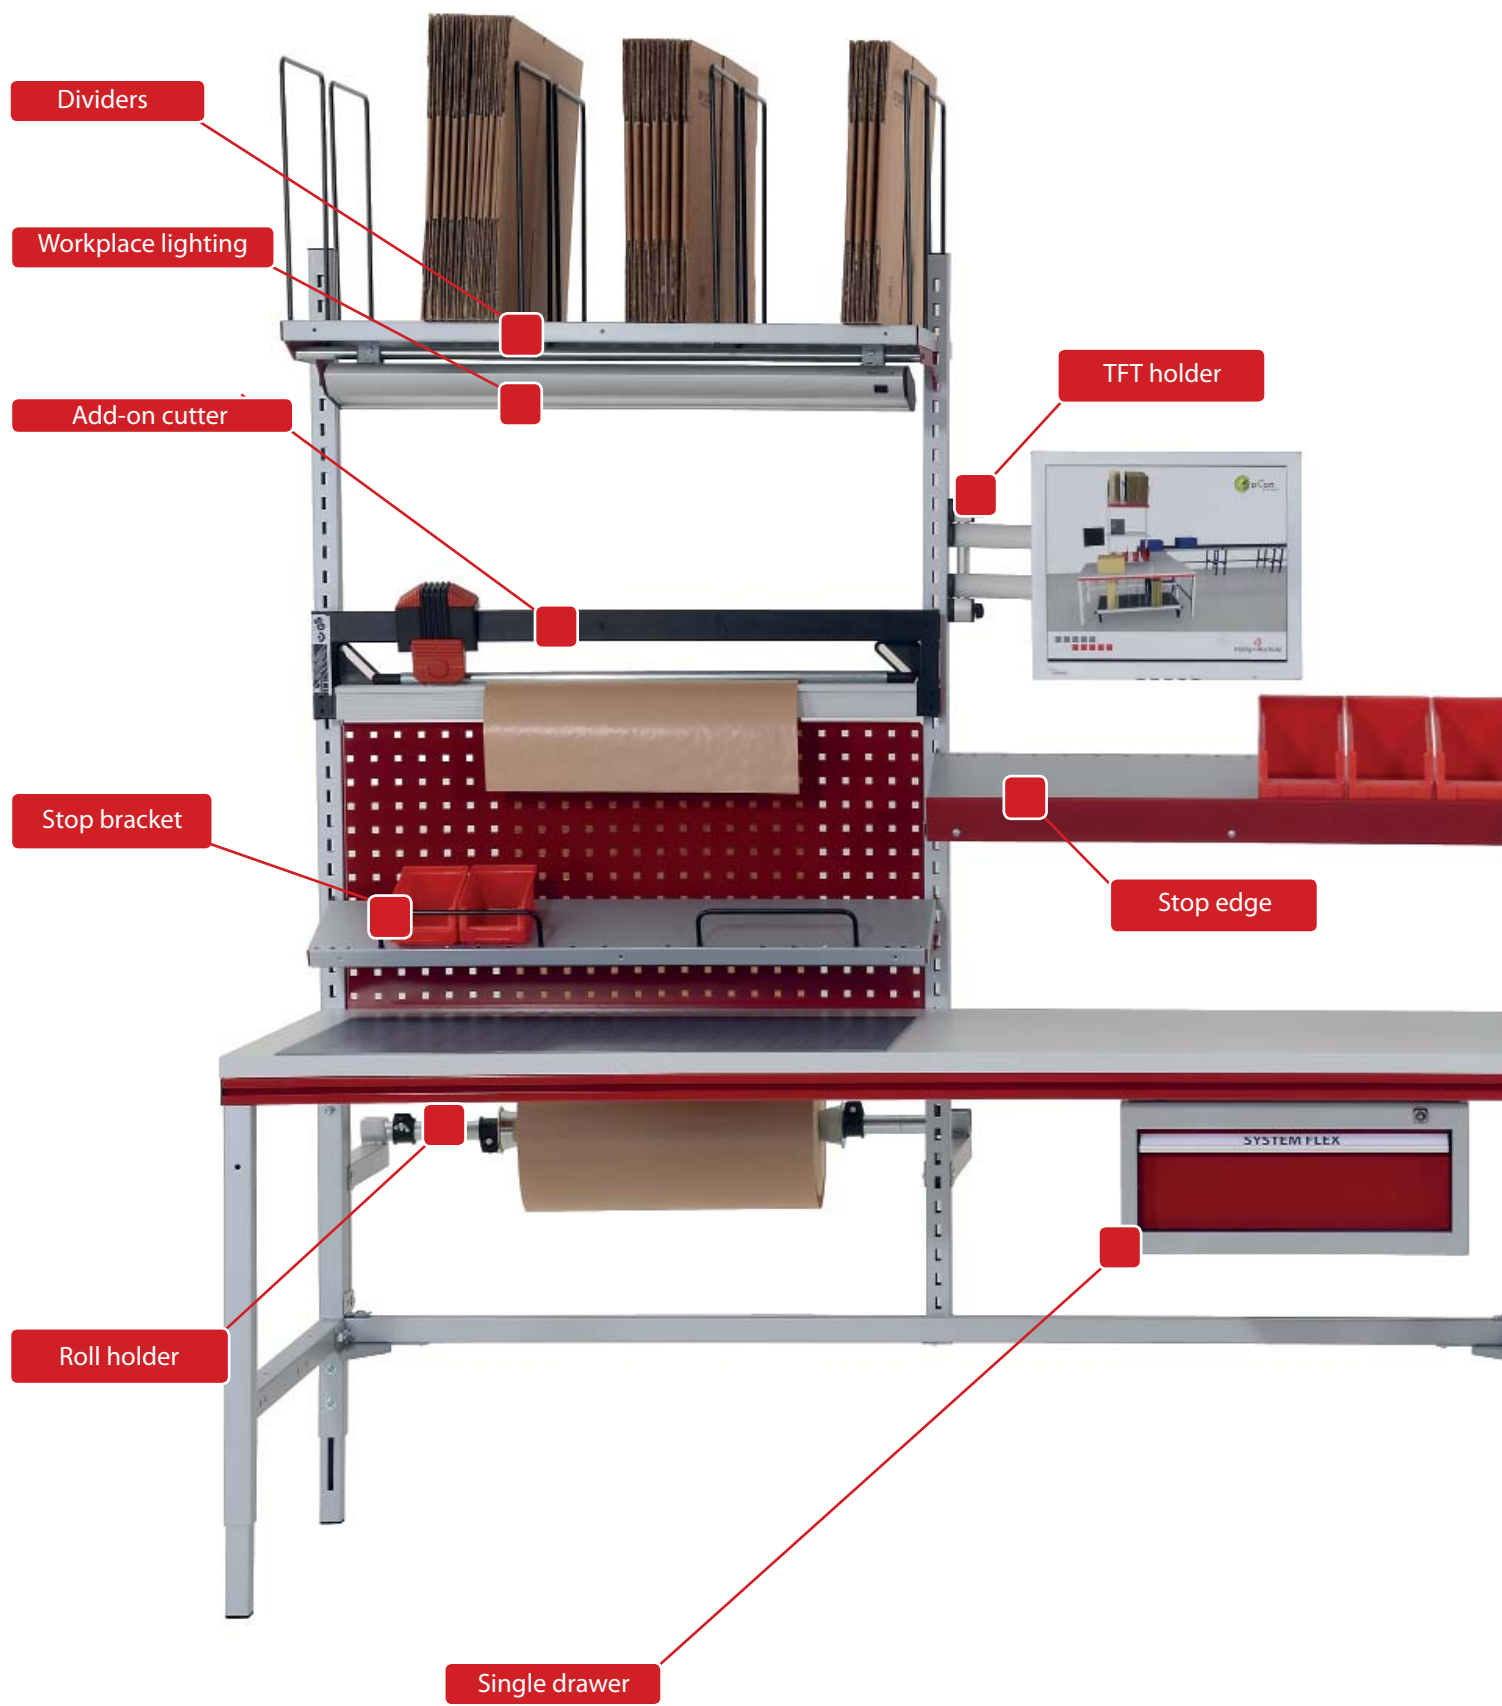

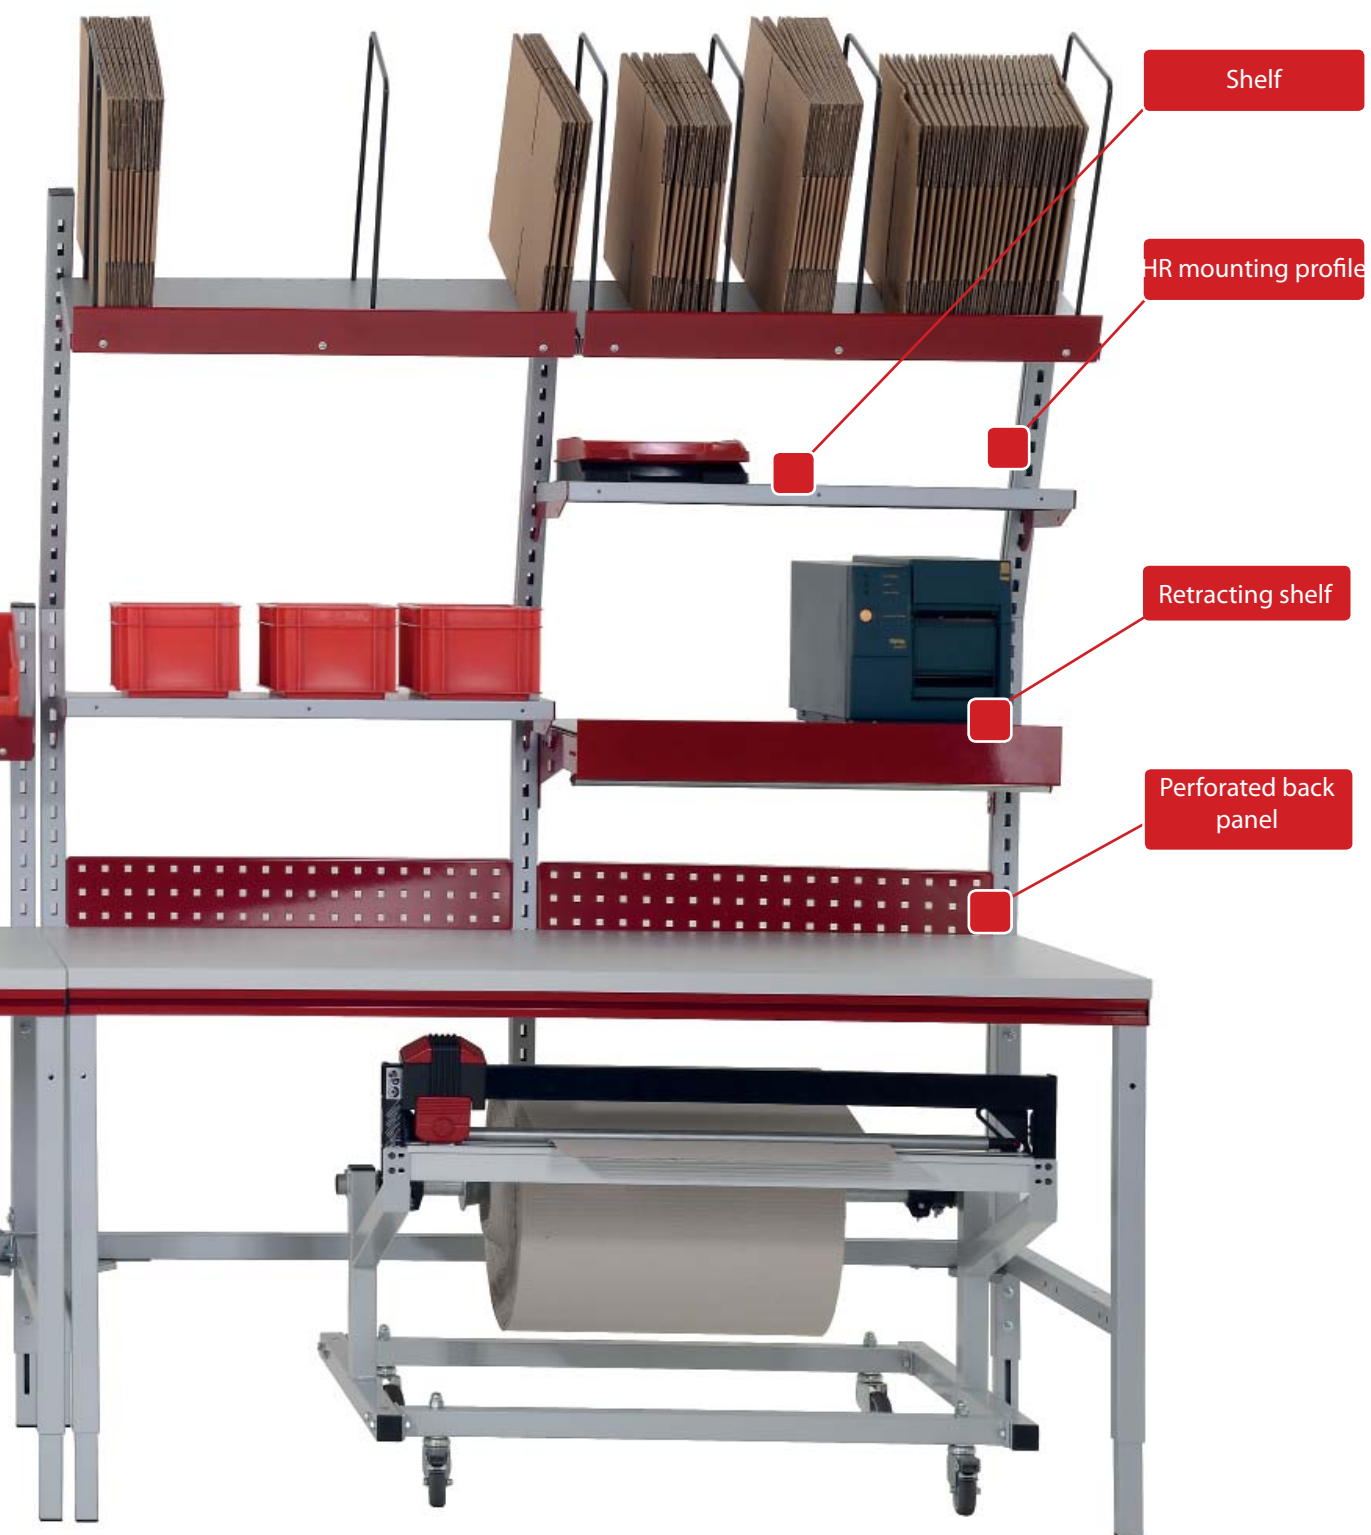

QUALITY MADE IN GERMANY

"Switching to the FLEX table system has resulted in a time optimisation of 20% per order in our delivery department. At the same time, our employees are motivated and relaxed when they finish work. We hadn't reckoned with that."
Jan H., logistics manager

SYSTEM FLEX mounting profiles and shelves

The HR mounting profile combines the advantages of an aluminium profile and sturdy steel structure to create an innovative, flexible concept.

HR mounting profile, long
- With 2 functional grooves
- With 2 rows of system perforations
- Divided for upright or inclined mounting

HR mounting profile, short (basic)
- With 2 functional grooves
- With 2 rows of system perforations
- Height above table: 520 mm

Retracting shelf
- For screwing into system grooves in mounting profiles
- Adjustable height in system perforations
- Ideal for label printers
- Max. surface load 40kg

Order no.	W x D x H (mm)
73308000 Long version (1.)	1745 x 40 x 40
73308100 Assembly set for inclined installation (2.)	1745 x 40 x 40

Order no.	W x D x H (mm)
73309200 (3.)	1055 x 40 x 40

| Order no.	W x D x H (mm)

Please note for two-sided shelving:
For shelves that are at right angles to a straight spar, please order two storage shelves type A.

SYSTEM FLEX lamps and lighting accessories

Workplace lighting
- 73308900 T5 lamps with conical prismatic shade
- 73309000 LED technology
- Without connecting cable

Order no.	W x D x H (mm)
73308900 T5 39 W	899 x 50 x 187
7330900 LED 33 W	899 x 50 x 187
73310200 Power cord 3 m	
73311400 Connecting cable 2.5 m	

Lighting fixtures
- 2x tube for pipe shelf for screwing onto carrier arms
- 1x assembly set

Order no.	W x D x H (mm)
73306700 For mounting width 800 mm	
73306800 For mounting width 1000 mm	

Carrier arm
- For hooking the lighting fixture directly onto the HR mounting profile
- Three carrier arms are required

Order no.	W x D x H (mm)
73301200 Ruby red	400
73301201 Gentian blue	400

The power cord and/or connecting cable for the workplace lighting must be ordered separately.

SYSTEM FLEX scales and weighing accessories

Digital table scale 60 kg
- Evaluation unit made of ABS plastic
- 2 m measuring cable with plug connector
- 230 V mains connection via external power adapter, 1.8 m cable
- Powder-coated, stainless steel weighing platform, W x D: 500x400 mm, for max. weight 60 kg, 20 g scale divisions, 1 strain gauge load cell made of anodised aluminium alloy, IP 66
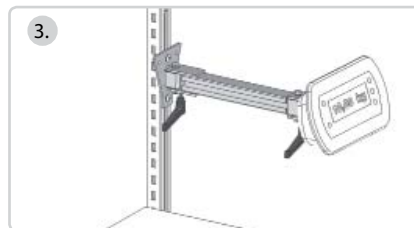

Order no.	W x D x H (mm)
897052	400 x 500 x 82 Weighing area

Digital table scale, 60 kg, with calibration function, PC connection
- Stainless steel evaluation unit, protection class IP 67, 25 mm LCD display for gross, net or tare weight, tare correction, 10 customisable printouts, 1 RS232 serial port
- Powder-coated, stainless steel weighing platform, WxD: 500x400 mm, for max. weight 60 kg, 20 g scale divisions, 1 strain gauge load cell of anodised aluminium alloy, IP 66

| Order no.	W x D x H (mm)
897062	400 x 500 x 82 Weighing area

Holder for scale display unit
- For flexible attachment of a scale display unit to the mounting profile with the supplied adapter
- Data cable must have a min. length of 2000 mm.
- Load capacity 15 kg

| Order no.	W x D x H (mm)
73310700	325

SYSTEM FLEX accessories

Perforated back panel
- For screwing into system grooves in HR mounting profiles
- Infinitely variable height, fits flush at the front and back (in the depth) with the HR mounting profiles
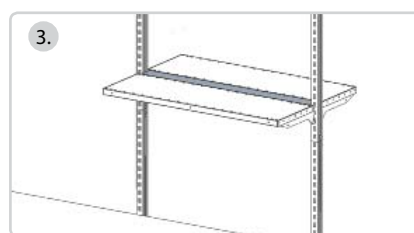

Order no.	W x D x H (mm)
73305900 Ruby red	1000 x 30 x 100
73305901 Gentian blue	1000 x 30 x 100

73302201 Gentian blue	800 x 30 x 200
73303400 Ruby red	800 x 30 x 500
73303401 Gentian blue	800 x 30 x 500

Partition
- Angled, for flexible positioning anywhere on the shelf to create different storage widths
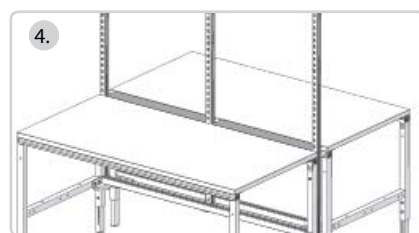

Order no.	W x D x H (mm)
73311700 200 mm deep shelves	D x H 200 x 180
73311800 300 mm deep shelves	D x H 300 x 180

Cover rail
- For mounting between HR mounting profiles when using a combination of front and rear shelves, level installation

Order no.	W x D x H (mm)
73312000 For mounting width 800 mm	736 x 73 x 30
73312100 For mounting width 1000 mm	936 x 73 x 30

Cover rail for double workplaces
- For installation between the HR mounting profiles

Order no.	W x D x H (mm)
73600050	800 x 40
73312900	1000 x 40

Stop edge
- For screwing onto the front of a shelf
- Continuous edge when using the full shelf depth

Order no.	W x D x H (mm)
73302000 Ruby red	800
73302001 Gentian blue	800
73309400 Ruby red	1000
73309401 Gentian blue	1000

Utensils rack, complete
- For hooking into the system perforations in the HR mounting profiles
- For storing rolls of adhesive tape, etc.
- Incl. 4 dividers

Order no.	W x D x H (mm)
73312600	1000 x 200
73312601	1000 x 200
73312500	800 x 200
73312501	800 x 200

7.

Stop bracket
- For inserting into the shelf perforation rows

Order no.	W x D x H (mm)
73301900	250

8.

Shelf dividers
- For inserting into the shelf perforations
- Open shelf divider
- Set = 4 pcs.

Order no.	W x D x H (mm)
73308800	300 x 400

9.

Single drawers, lockable
- Front height: 150 mm
- Incl. assembly set
- Load capacity 35 kg

Order no.	W x D x H (mm)
73305100 Ruby red	527 x 630 x 225 Interior dimensions: 459 x 442 x 125
73305101 Gentian blue	527 x 630 x 225 Interior dimensions: 459 x 442 x 125

10.

Complement drawers
- Front height: 150 mm
- Locking, incl. assembly set
- Load capacity per drawer 35 kg

Order no.	W x D x H (mm)
73314600 Ruby red	527 x 630 x 200 Interior dimensions: 450 x 445 x 120
73314601 Gentian blue	527 x 510 x 200 Interior dimensions: 450 x 445 x 120

11.

Add-on cutter
- Cutting width 750 mm
- For hooking on to the HR mounting profile

Order no.	W x D x H (mm)
73303900	1000 x 50 x 150

12.

Spindle set, complete
- Comprising: 1 pair of cones, 4 clamp rings, 1 spindle
- Spindle tube diameter 32 mm
- Max. roll weight 100 kg

Order no.	W x D x H (mm)
73313100 For table width 1200	
73313200 For table width 1600	
73313300 For table width 2000	

13.

Roll holder
- For screw attachment to HR mounting profile
- Max. roll weight 25 kg
- Max. roll width 750 mm
- Max. roll diameter 800 mm

Order no.	W x D x H (mm)
73304000	1000 x 450

14.

Holder for adhesive tape dispenser
- For attachment to HR mounting profile
- Suitable for many common dispensers

Order no.	W x D x H (mm)
73308200	95 x 38 x 78

SYSTEM FLEX IT accessories

1.

Thin client holder
- For screwing into the system grooves in the HR mounting profile
- Infinitely variable height adjustment

Order no.	W x D x H (mm)
73308300	300 x 70-120

2.

Mini PC holder
- For mounting underneath the table, adjustable:
  interior height 205-360 mm,
  interior width 50-100 mm
- Incl. fastening screws and drilling template

Order no.	W x D x H (mm)
228110	160 x 115 x 240-395

3.

PC holder
- For mounting underneath the table, adjustable:
  interior height 307-531 mm,
  interior width 78-220 mm
- Incl. fastening screws and drilling template
- Weight 3 kg

Order no.	W x D x H (mm)
228100	100-242 x 150 x 320-545

4.

TFT folding arms
- For flexible attachment of a TFT monitor to the HR mounting profile
- VESA 75/100 quick-release attachment

Order no.	W x D x H (mm)
509203 Load capacity 5 kg	100 x 455 x 115 Weight 1.6 kg
509204 Load capacity 15 kg	100 x 455 x 200 Weight 2.1 kg

5.

Keyboard and mouse platform with folding arm
- For flexible attachment to the HR mounting profile
- Shelf area: 640x172 mm
- Load capacity 10 kg

Order no.	W x D x H (mm)
509201	640 x 508 x 120

6.

Adapter for TFT folding arms 509204 and 509203
- For attaching TFT folding arms to inclined HR mounting profiles
- For positioning as required in the system grooves

Order no.	W x D x H (mm)
73313600	

7.

Shelves incl. retracting keyboard tray
- Incl. carrier arms
- Shelf and keyboard drawer with retracting mouse tray
- Horizontal sliding adjustment

| Order no.	W x D x H (mm)
73308600 Ruby red	800
73308601 Gentian blue	800
73308700 Ruby red	1000
73308701 Gentian blue	1000

8.

Cable tray
- For attachment to the table functional struts

Order no.	W x D x H (mm)
73600088	600 x 125 x 116
73600026	800 x 125 x 116
73311600 Black, without power cord	61 x 45 x 304
73310200 Power cord 3 m	
73311400 Connecting cable 2.5 m	

9.

Cable duct
- For attachment to shelves
- Can also be used as a cover rail on double-sided shelves

Order no.	W x D x H (mm)
73312700	730 x 72 x 93
73312800	930 x 72 x 93

10.
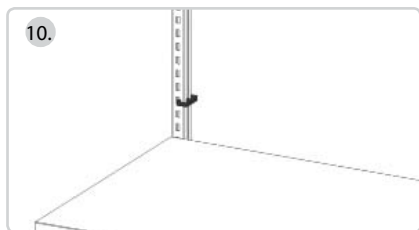

Cable clips
- For cable management on HR profile uprights
- Set = 10 pcs.

Order no.	W x D x H (mm)
73312200	69 x 35 x 12

11.

4-socket outlet
- For attachment to the HR mounting profile using the supplied assembly set
- Power connection 230 V, 16 A

Order no.	W x D x H (mm)
73311600 Black, without power cord	61 x 45 x 304
73310200 Power cord 3 m

73308500	210 x 125 x 130

FANTASTIC

Long uprights

TFT folding arm

Storage shelf

Add-on storage rack

Undertable storage rack
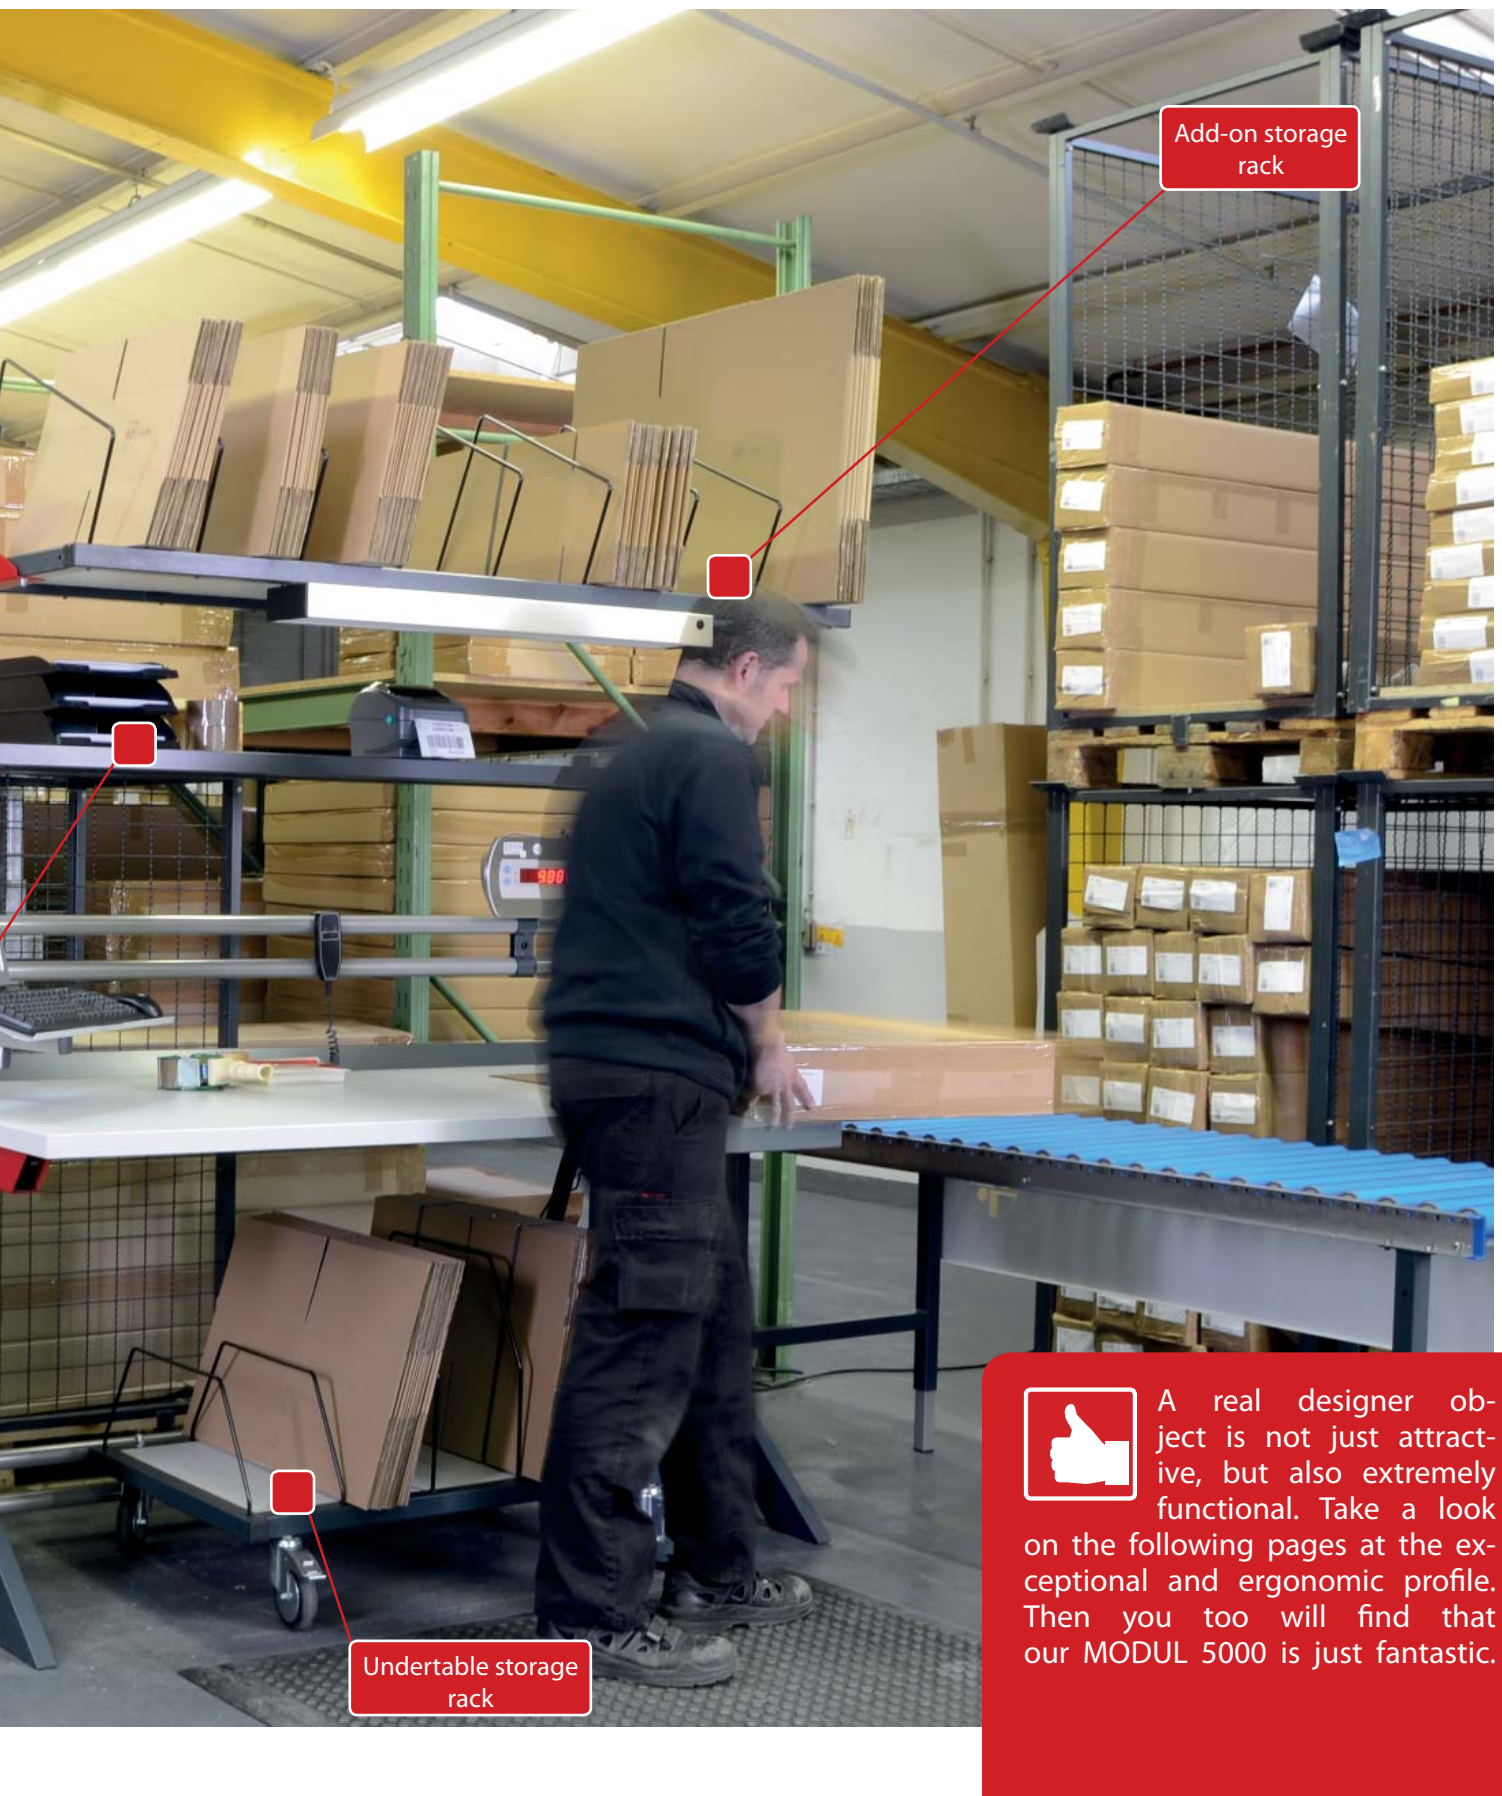

A real designer object is not just attractive, but also extremely functional. Take a look on the following pages at the exceptional and ergonomic profile. Then you too will find that our MODUL 5000 is just fantastic.
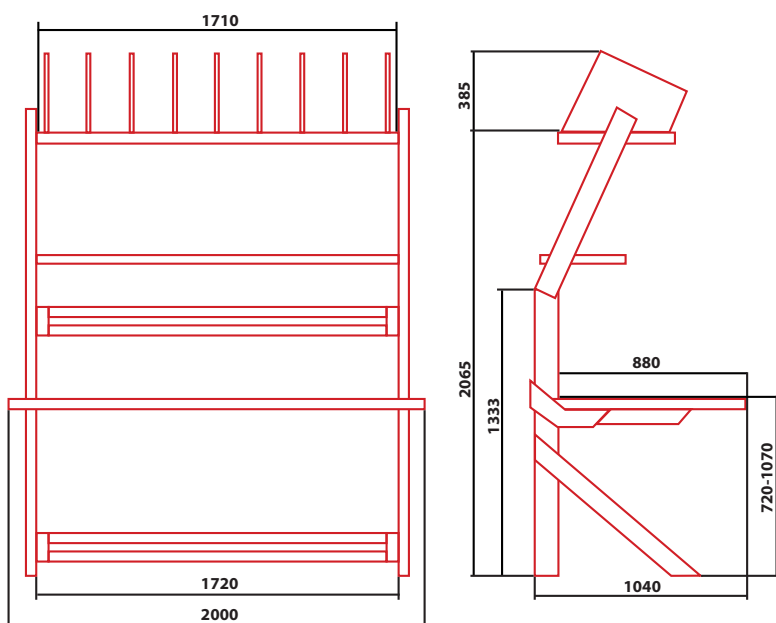

MODUL 5000

MODUL 5000

The design is exceptional, ergonomic, and has received international awards. Its intelligent construction enables even the basic configuration of the MODUL 5000 to be easily adapted to accommodate personal requirements for working seated or standing up. If required, the working level can also adjusted using a crank mechanism or really conveniently with an electric motor.

• Sturdy steel table
• Worktop 2000 x 880 x 38 mm
• 200 kg surface load capacity
• Light grey worktop, coated with melamine resin
• Steel components with powder-coated finish, anthracite RAL 7016, ruby red RAL 3003
• Simple height adjustment at 50 mm intervals (720-1070) without tools
• Optional height adjustment with a crank or electric motor
• Extensive range of accessories
• Tables with an integrated scale and/or roller track

QUALITY MADE IN GERMANY

The MODUL 5000 is also ideal as an office workplace. Its "floating table top" means that there are no table legs to get in the way when you're sitting at it. The attractive design blends into every modern office landscape.
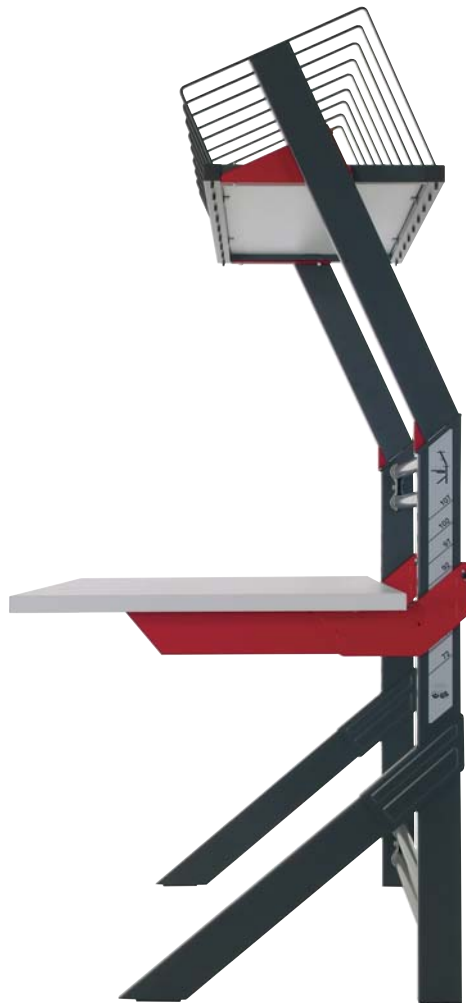

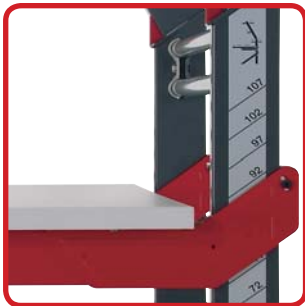

MODUL 5000

Maximalistic

The MODUL 5000 can also be equipped as a dual order picking and packing station.
The top level serves as a cardboard storage rack, while the picking products are readily available underneath it on a slanting shelf. The counting scale integrated in the packing table features a PC interface as well as printer and scanner ports.

The integrated pneumatic lift table moves packing items weighing up to 60 kg and allows for effortless order picking or packing. The products are conveniently transported to the conveyor system over the roller track table standing next to the station. This prevents muscle and back ailments, a frequent cause of incapacity for work.

Ergonomics and design

The MODUL 5000 packing table with integrated roller track is a real highlight. The work surface made of galvanised sheet steel also offers enough space to "fix" even large cartons. The table height can be adjusted to between 770 and 1120 mm. This enables you to integrate it in your order picking and packaging processes.

• Ergonomic intersection for an uninterrupted flow of goods
• Integrated roller track
• Height adjustment at 50 mm intervals (720-1070)
• Optional height adjustment with a crank or electric motor
• Exceptional and ergonomic design
• Ergonomic positioning of the accessories
 by means of the inclined uprights

The tables from the MODUL 5000 programme have an adjustable height of 720-1070 mm: manually at 50 mm increments, or infinitely with a crank or electric motor!
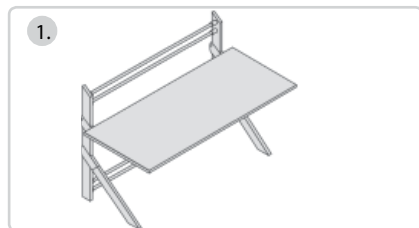

MODUL 5000

Special features at a glance:

- An exceptional and ergonomic design that has received international awards.

- Can be quickly and easily adapted to accommodate personal requirements for working seated or standing up.. The working level can also be adjusted as required with a crank mechanism or electric motor.

- The modular system can be expanded and adapted for new requirements whenever necessary with elements from the extensive range of accessories.
This assures you long-term security for your investment.

- Also available in combination with an integrated scale and roller track.

- With the MODUL 5000, we and our distribution partners can also offer you custom solutions for your own requirements.
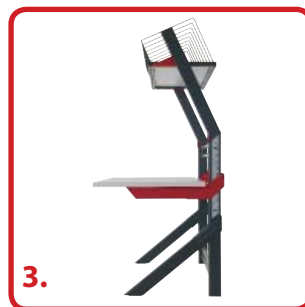

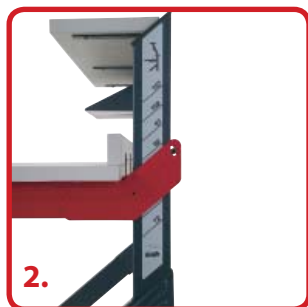

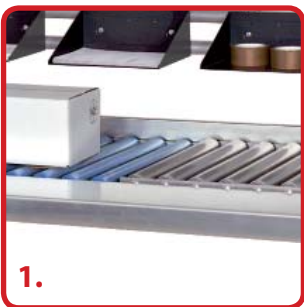

1.   2.   3.   4.

Alongside high quality standards, being located in Germany also means that we can guarantee short delivery times and efficiently supply accessories and spare parts.

Display panel holder with magnetic attachment
- Display panel holder with 5 display panels, black
- Metal wall holder with magnetic back

Order no.	W x D x H (mm)
591401	

Display panel holder as table stand-up display
- Complete set made of powder-coated steel for table top use
- L-shaped, metal table stand-up display with 10 display panels, assorted colours

Order no.	W x D x H (mm)
557000	

A4 display panel
- 5 display panels
- Polypropylene display panels with black all-round profile frame
- For DIN A4 info sheets

Order no.	W x D x H (mm)
560601	

10.

Mobile hanging frame
- 360° swivel mounting

Order no.	W x D x H (mm)
2046	1050 x 700 x 2100-3500 Weight 45 kg
802045 Extension strut with bracket	Weight 2 kg

11.

Mobile cardboard storage rack
- Two levels
- With handle

Order no.	W x D x H (mm)
2042-2 Cardboard storage rack, short For approx. 200 folding cartons	1015 x 600 x 1260 Weight 42 kg
2043-2 Cardboard storage rack, long, For approx. 320 folding cartons	1600 x 600 x 1260 Weight 58 kg

12.
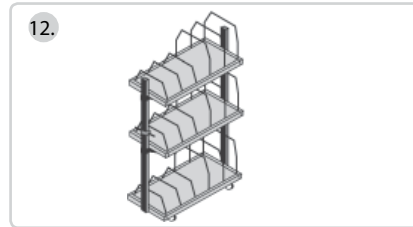

Mobile cardboard storage rack
- Three levels
- With handle

Order no.	W x D x H (mm)
2042-3 Cardboard storage rack, short For approx. 300 folding cartons	1015 x 600 x 1860 Weight 64 kg
2043-3 Cardboard storage rack, long, For approx. 480 folding cartons	1600 x 600 x 1860 Weight 88 kg

**QUALITY
MADE
IN GERMANY**

Whether as a QM station, workshop trolley, standing workplace or mobile information stand, these two systems are extremely versatile just like all our other products. The mobile version is delivered with 4 castors (2 lockable).

Basic
MODUL 5100

1.

Standing/seating workplace, complete
- Comprising:
Standing table, max. load capacity 200 kg
Storage shelf, top, max. load capacity 50 kg
Drawer, load capacity 20 kg
Storage shelf, bottom, max. load capacity 50 kg
Multi-purpose shelf, load capacity 15 kg
Runners
- Weight 85 kg

Order no.	W x D x H (mm)
510010	800 x 750 x 1330

2.

ErgoPlus 3000 standing aid
- With infinite adjustment of the backrest and seat cushion 600-900 mm
- Collapsible
- Weight 12 kg

Order no.	W x D x H (mm)
519192	670 x 500 x 1100

Basic
MODUL 5200

1.

Standing workplace / QM station
- With information board
- Metal shelf and tray for small utensils
- Max. surface load of shelf 50 kg
- Load capacity of drawer 35 kg
- Weight 53 kg

Order no.	W x D x H (mm)
531003	670 x 650 x 1765

2.

Standing workplace / QM station
- With information board
- Metal shelf and drawer for suspension files
- Max. surface load of shelf 50 kg
- Load capacity of drawer 35 kg
- Weight 53 kg

Order no.	W x D x H (mm)
531004	670 x 650 x 1765

3.

Standing workplace / QM station
- With information board
- Metal shelf and filing cabinet
- Max. surface load of shelf 50 kg
- Load capacity of cabinet 35 kg
- Weight 46 kg

Order no.	W x D x H (mm)
531005	670 x 650 x 1765

4.

Standing workplace / QM station
- With information board
- Metal shelf and tray for small utensils
- Max. surface load of shelf 50 kg
- Load capacity of drawer 35 kg
- Weight 65 kg

Order no.	W x D x H (mm)
531007	1050 x 650 x 1765

5.

Standing workplace / QM station
- Wide with table top
- Metal shelf and information board
- Max. surface load per drawer 50 kg
- Weight 51 kg

Order no.	W x D x H (mm)
531001	1050 x 650 x 1765

6.

Standing workplace / QM station
- Narrow with whiteboard incl. pen set
- Metal shelf and filing cabinet
- Max. surface load of shelf 50 kg
- Load capacity of cabinet 35 kg
- Weight 46 kg

Order no.	W x D x H (mm)
531009	670 x 650 x 1765

Basic
MODUL 5200

Mobile packing station
- Narrow, mobile, two-sided
- With wide wooden shelf, metal shelf and add-on storage rack

Order no.	W x D x H (mm)
531010N	1050 x 1060 x 1800
527109 VESA 75/100 holder for TFT monitor	610 x 282

Cutting systems

For better cutting results

Choose from our proven cutting systems with dispenser for roll material (such as paper, cardboard or foil) for use either as a stand-alone cutting station or right next to the packing workplace.

The machinery quickly pays for itself since roll material is cheaper than cuttings. Not only that, but it also makes the dangerous and time-consuming handling of knives and scissors superfluous.

We supply two cutter cartridges - as standard!

QUALITY
MADE
IN GERMANY

The cutter cartridges can be exchanged without any effort. The round cutter for paper, cardboard, etc., the blade for all soft foil. A clamping mechanism allows comfortable insertion of the material and safe holding after every cut.

Cutter stand, horizontal

Cutter stand, horizontal
- Dispensing height 890 mm
- Max. roll weight 200 kg
- Max. roll Ø 1000 mm

Order no.	Cutting width mm	W x D x H (mm)
55307	750	1090 x 970 x 1060
55310	1000	1340
55312	1250	1590
55316	1600	1940

Dual cutter stand
- Dispensing height 890/1215 mm
- Max. weight per roll 150 kg
- Max. roll Ø 750 mm

Order no.	Cutting width mm	W x D x H (mm)
55407	750	1090 x 970 x 1060
55410	1000	1340
55412	1250	1590
55416	1600	1940

Undertable cutter
- Mobile
- Dispensing height 580 mm
- Max. roll weight: 200 kg
- Max. roll Ø 750 mm

Order no.	Cutting width mm	W x D x H (mm)
25507	750	1000 x 880 x 740
25510	1000	1250
25512	1250	1500
25516	1600	1850

Cutter stand, horizontal
- For light rolls
- Infinitely adjustable dispensing height
- Max. roll weight 100 kg
- Max. roll Ø 800 mm

Order no.	Cutting width mm	W x D x H (mm)
26207N	750	1120 x 850 x 1165
26210N	1000	1370
26212N	1250	1620
26216N	1600	1970
26218N	1800	2170
26220N	2000	2370

Cutter stand, for 2 rolls
- For light rolls
- Infinitely adjustable dispensing height
- With one cutter
- Max. total roll weight 130 kg
- Max. roll Ø 800 mm

Order no.	Cutting width mm	W x D x H (mm)
26507	750	1120 x 850 x 1665
26510	1000	1370
26512	1250	1620
26516	1600	1970
26518	1800	2170
26520	2000	2370

Dual cutter stands
- For light rolls
- Infinitely adjustable dispensing height
- With two cutters
- Max. total roll weight 130 kg
- Max. roll Ø 800 mm

Order no.	Cutting width mm	W x D x H (mm)
26407	750	1120 x 850 x 1665
26410	1000	1370
26412	1250	1620
26416	1600	1970
26418	1800	2170
26420	2000	2370

Undertable cutter, mobile
- Dispensing height 544 mm
- Max. roll weight 200 kg
- Max. roll Ø 750 mm

Order no.	Cutting width mm	W x D x H (mm)
55507	750	1090 x 970 x 810
55510	1000	1340
55512	1250	1590
55516	1600	1940

Cutters, wall-mounted and table version

1.
Mounting materials not included

2.

Wall-mounted cutter:
- Spindle Ø 32 mm
- Max. roll weight: 80 kg
- Max. roll Ø: 250 mm

Order no.	Cutting width mm	W x D x H (mm)
25907	750	1000 x 400 x 430
25910	1000	1250
25912	1250	1500
25916	1600	1850

Wall-mounted cutter:
- Spindle Ø 32 mm
- Max. roll weight: 200 kg
- Max. roll Ø: 500 mm

Order no.	Cutting width mm	W x D x H (mm)
26007	750	1000 x 670 x 570
26010	1000	1250
26012	1250	1500
26016	1600	1850

Table top cutter:
- Spindle Ø 32 mm
- Max. roll weight: 80 kg
- Max. roll Ø: 250 mm

Order no.	Cutting width mm	W x D x H (mm)
25607	750	1000 x 360 x 350
25610	1000	1250
25612	1250	1500
25616	1600	1850

Table top cutter:
- Spindle Ø 32 mm
- Max. roll weight: 200 kg
- Max. roll Ø: 500 mm

Order no.	Cutting width mm	W x D x H (mm)
25707	750	1000 x 600 x 470
25710	1000	1250
25712	1250	1500
25716	1600	1850

Cutter stand, vertical

1.

2.

Cutter stand, vertical
- Max. roll weight: 200 kg
- Max. roll Ø 450 mm

Order no.	Cutting width mm	W x D x H (mm)
35010	1000	480 x 580 x 1300
35012	1250	1550
35016	1600	1900

Cutter stand, vertical
- Max. roll weight: 200 kg
- Max. roll Ø 800 mm

Order no.	Cutting width mm	W x D x H (mm)
35110	1000	800 x 880 x 1300
35112	1250	1550
35116	1600	1900
35118	1800	2100
35120	2000	2300

Roll dispensers and add-on cutter

Mobile roll dispenser
- Max. roll weight: 200 kg
- Max. roll Ø 750 mm

Order no.	Roll width mm	W x D x H (mm)
53107	750	1090 x 770 x 680
53110	1000	1340
53112	1250	1590

Mobile roll dispenser
- Max. roll weight: 200 kg
- Max. roll Ø 750 mm

Order no.	Roll width mm	W x D x H (mm)
23207	750	1000 x 840 x 500
23210	1000	1250
23212	1250	1500

Mobile roll dispenser
- Max. roll weight: 200 kg
- Max. roll Ø 500 mm

Order no.	Roll width mm	W x D x H (mm)
23107	750	1000 x 600 x 400
23110	1000	1250
23112	1250	1500

Add-on cutter
- Max. clamping range 70 mm
- Suitable for 203000 and 503000
- 57112 is only suitable for 203000

Order no.	Cutting width mm	W x D x H (mm)
55107	750	1033 x 250 x 280
55110	1000	1283
55112	1250	1533
55116	1600	1883

Cutter stand accessories
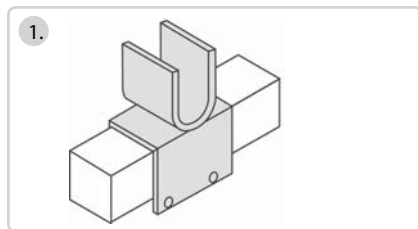

Bearing shells for roll spindles
- For undertable installation of SYSTEM 2000
- Horizontal
- Weight 0.5 kg

Order no.	W x D x H (mm)
23800	

Spindle set, complete
- Spindle tube diameter 32 mm, for roll widths up to 1600 mm
- 1 pair of cones for core diameters 50 - 85 mm
- 4 clamp rings for adjusting the roll
- Incl. for tables with a clear width of 1640 mm
- Weight 3 kg

Order no.	W x D x H (mm)
23900	1850 x 32 mm Ø

Metre counter
- Suitable for cutter stands 262, 264, 265, 553, 554

Order no.	Roll width mm	W x D x H (mm)
256075	750	1000 x 155 x 155
256100	1000	1250
256125	1250	1500
256160	1600	1850
256180	1800	2050
256200	2000	2250

Roll stand with tear-off mechanism
- For pre-perforated material
- Castors not included
- Max. roll weight 100 kg
- Max. roll Ø 800 mm

Order no.	Roll width mm	W x D x H (mm)
26207 AV	750	1120 x 920 x 1165
26210 AV	1000	1370
26212 AV	1250	1620
26216 AV	1600	1970
26218 AV	1800	2170
26220 AV	2000	2370

Add-on winding unit
- Incl. hand crank
- Spindle and cones for core diameters 46 - 60 mm

Order no.	Suitable for
252507	26207N / 26407 / 26507
252510	26210N / 26410 / 26510
252512	26212N / 26412 / 26512
252516	26216N / 26416 / 26516
252518	26218N / 26418 / 26518
252520	26220N / 26420 / 26520

Roll runners for devices 553...
- With 4 castors, 2 of which are lockable

Order no.	W x D x H (mm)
5554 roll runners for devices 553... Load capacity per roll 75 kg	52 x 650 x 100 Weight 3 kg
23601 Castors for devices 262..., 265..., 264... With 4 castors, 2 of which are lockable Load capacity per roll 70 kg	Weight 1 kg

Pneumatic cutter

The pneumatically powered cutter is used solely for cutting packing materials such as paper, tissue paper, kraft paper, corrugated cardboard, anti-rust paper, soft flat film, foam sheets, air bubble film, tubular film, etc.
Foam sheets can have a maximum thickness of 6 mm, air bubble film 10 mm.
Special and kraft paper with a grammage of more than 180 g/m^2 have to be tested for their cutting suitability. This also applies for flat and tubular film with a thickness of over 0.2 mm.

■ Safe usage and ergonomic handling, especially for large cutting widths

■ Consistent cutting quality

■ Low fatigue, even for greater volumes, practicable for large widths (up to 1600 mm cutting width)

1.

2.

Pneumatic cutter stands, horizontal
- Compressed air connection 6 bar (max.)
- Max. roll weight: 200 kg
- Max. roll Ø 750 mm

Order no.	Cutting width mm	W x D x H (mm)
57310	1000	1730 x 970 x 1060
57312	1250	1980
57316	1600	2330

Pneumatic add-on cutter
- For rear edge of table
- Max. clamping range 70 mm
- Suitable for 203000 and 503000
- 57112 is only suitable for 203000

Order no.	Cutting width mm	W x D x H (mm)
57107	750	1480 x 235 x 200
57112	1250	1980

👍 The cutting speed is adjustable. Approx. 1.5 m/sec (factory setting)

ZA 630 automatic cutting

The cutting machine ZA 630 is the latest development for flexible cuttings from a variety of different materials such as foil, paper, corrugated cardboard or foam. The precision-guided cutting carriage and the contact pressure accomplished by rubber lips compensate uneven materials. Therefore, a high cutting accuracy can be achieved.

**QUALITY
MADE
IN GERMANY**

Features:

- Touch-screen operator terminal (2), plain and clear operator guidance and completely reworked service menu
- Low sound emission figures due to encapsulation of individual components and modern means of storage technology
- High level of machine availability due to short set-up and service periods
- Electronically controlled feed rate plus slip compensation
- Circular knife and blade
- End-of-material control
- Please feel free to contact us about additional options and individual modifications!

The two-sided hold-down bar allows the processing of many different materials.
Send us your test samples!

Special features at a glance:

FLEXIBLE
The ZA 630 automatic cutting machine enables you to cut roll material in the quantity and size you require.

FAST
You can save frequently used size and quantity options and select them at the push of button, for convenient operation. State-of-the-art controls from Siemens equip the ZA 630 with the latest electrical technology.

COST-EFFECTIVE
You buy inexpensive roll material instead of expensive pre-cut pieces. This eliminates the need to store different sized materials because you simply cut according to your needs.

MODULAR
The machine's modular design assures long-term security for your investment. It can be adapted, adjusted and refit to accommodate changing requirements, whenever necessary.
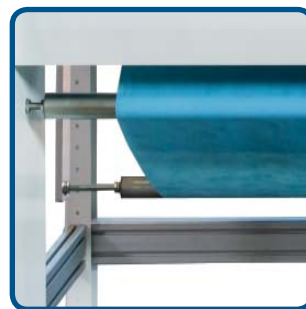

Our production site in Germany not only guarantees high quality standards but also ensures short delivery times and an efficient and smooth supply of accessories and spare parts.
